

PROFESSIONAL LAWN SEED EARLY SPRING 2023

Ver. 2.1

Quality & Trust Since 1892

*We maintain an extensive inventory of STOCK MIXTURES for virtually any application. Plus we specialize in CUSTOM BLENDING to meet the needs of specific conditions or job requirements. Natives, Pollinators & Wildflowers, too! Note that varieties marked * are endophyte enhanced for surface insect resistance.*

HART'S PRO LAWN SEED MIXTURES-EARLY SPRING 2023

We're pleased to report that the growers in OR and WA had a decent harvest last summer. As we go through the spring & new, uncoated crop becomes available we will start integrating them into the mixtures. Note that prices are subject to (& likely will) change without notice as uncoated seed gets incorporated.
